Devon Johnson

Frontend Software Engineer | UX Engineer

PROFESSIONAL EXPERIENCE

ChenMed, Miami, FL

Primary care provider with 100 medical centers nationwide, end-to-end customized technology, and named one of Fortune's 2020 "Change the World" companies.

Associate Software Engineer   07/2017 – 11/2023

- Lead Frontend Developer
- Designed and developed highly responsive, scalable React applications for a technology platform custom designed for value-based care.
- Collaborated with designers to translate design concepts into interactive, pixel-perfect user interfaces that improved physicians' user experiences and contributed to better patient health outcomes.
- Created design systems based on Material UI and KendoReact component libraries leveraging Storybook to maintain a consistent and cohesive user experience across the applications.
- Debugged complex and critical software errors in all environments.
- Integrated third-party software solutions into internal applications.
- Migrated legacy applications to React, significantly enhancing performance, scalability, and overall user experience through consolidation efforts.
- Demonstrated features to teams and or stakeholders every 2-3 weeks.
- Mentored junior to mid-level developers by creating and assigning tasks, conducting code reviews, and providing regular feedback and support.
